

Ammr Wahab

MERN Stack Developer

Phone: +923038204261 | **Email:** ammrwhab@gmail.com

Github: <https://github.com/AmmrWahab>

PROFESSIONAL SUMMARY

MERN Stack Developer experienced in building scalable, secure, and high-performance web applications with React.js, Node.js, Express.js, and MongoDB. Proven ability to deliver real-time platforms, AI-powered applications, and automated systems that enhance efficiency and user engagement. Focused on writing clean, maintainable code and driving measurable results through performance optimization and modern deployment practices.

CORE SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Recharts, Responsive UI Design

Backend: Node.js, Express.js, REST API Development

Database: MongoDB, MongoDB Atlas, Database Administration

Auth: JWT, Google OAuth 2.0, Role-Based Access Control

Real-Time: Socket.IO, WebSockets

Deployment: Git, GitHub, Vercel, Render, Postman, CI/CD

Practices: Agile Development, API Documentation, Unit Testing

PROJECTS

Car Rental Platform – Full-Stack Vehicle Marketplace

MERN, JWT, Cloudinary

- Developed a production-ready car rental and sales platform supporting self-drive rentals, long-term leases, and verified pre-owned vehicle purchases.
- Implemented role-based access (admin/user), secure JWT authentication, and real-time car management with image uploads via Cloudinary.
- Designed responsive UI with dynamic pricing in GBP (£), booking workflows, and admin dashboard for vehicle CRUD operations.
- Deployed frontend on Vercel and backend on Render with custom domain (`rracerltd.com`), HTTPS, and CORS-configured APIs achieving 100% uptime.

NexChat – Real-Time Messaging Platform

MERN, Socket.IO, JWT, Google OAuth

- Built a WhatsApp-inspired chat application supporting 100+ concurrent users with instant messaging and real-time updates.

- Developed RESTful APIs and implemented secure authentication (Google OAuth + JWT) with session persistence.
- Reduced server response time by 30% through optimized MongoDB queries and caching strategies.
- Added offline messaging, file sharing, and read receipts, boosting user retention and engagement.

MindSpace – Mental Wellness & AI Companion App

MERN, Gemini API, OAuth

- Created a full-stack mental wellness platform with journaling, guided breathing, and AI-powered conversations.
- Integrated Gemini API chatbot to detect emotional cues and provide empathetic responses during crises.
- Deployed frontend and backend on Vercel + Render with 99% uptime; persistent storage via MongoDB Atlas.
- Enhanced user experience with data visualization (Recharts) and mobile-responsive design.

FYP Portal – Academic Project Management System

MERN

- Designed and deployed a centralized system for managing 50+ student projects, reducing manual coordination.
- Implemented role-based dashboards for students, supervisors, and administrators, improving transparency.
- Automated supervisor assignment and approval workflows, cutting administrative workload by 40%.
- Added real-time notifications for group approvals and rejections, increasing user engagement.

EDUCATION

BS Software Engineering – COMSATS University, Sahiwal

ICS (Intermediate in Computer Science) – Hira Science Educational Complex, HaroonAbad
